Professional Summary:

Full-Stack Developer specializing in building fast, scalable, and user-centered web applications with React, Node.js, and Laravel. Focused on clean architecture, intuitive UI/UX, and efficient backend logic that delivers real value.

Alongside development, I teach programming and robotics, breaking down complex concepts through practical, project-based learning. This blend of engineering and teaching strengthens my communication, leadership, and problem-solving skills—making me a more effective developer in both team and product environments.

Professional Experience:

Teacher | “Mkhitar Sebastatsi” Educomplex | Full-time | Sep 2025 - Present

- Taught programming from basic to intermediate levels, introducing students to algorithms, problem-solving, and real project development.
- Designed engaging lessons using tools like Scratch for beginners and Python, PHP, Node.js, and modern web technologies for advanced programming.
- Guided students in creating games, applications, and simple automation projects through hands-on, project-based learning.
- Encouraged creativity, computational thinking, teamwork, and independent exploration in the classroom.
- Provided personalized support to help students debug their code, improve their skills, and gain confidence in technology and innovation.

Coach | Armath Engineering Makerspaces (Union of Advanced Technology Enterprises - UATE) | Jan 2025 - Present

- Delivered hands-on instruction in **basic to advanced programming**, including game development with Scratch-based Aghues, algorithm visualization with Kria, and C/C++ for Arduino-based robotics.
- Guided students in building **robotics and IoT projects** using Raspberry Pi, SERob controllers, and Python, applying principles like object detection, obstacle avoidance, and line-following.
- Led workshops on **3D modeling and printing** with FreeCAD/OpenSCAD, and operated CNC machines for laser cutting and drilling using Inkscape and HeeksCNC.
- Promoted STEM education by merging programming, robotics, and digital fabrication into project-based learning modules emphasizing creativity,

problem-solving, and rapid iteration.

Full-stack Web Developer | Apricode Inc. | Sep 2022 - Sep 2024

- Engineered and maintained dynamic web applications using **React.js**, **Laravel**, and **Livewire**, delivering scalable solutions across diverse projects.
- Designed and implemented **RESTful APIs** and integrated complex third-party services (e.g., **Dexatel**, **Glovo**) to enhance application functionality and real-time capabilities.
- Translated **Figma** and **Zeplin** designs into pixel-perfect, responsive UIs using **React**, **Tailwind CSS**, and **Alpine.js**, ensuring seamless user experiences.
- Developed full-featured **e-commerce systems** with advanced product filtering, real-time pricing logic, and intuitive navigation to increase user engagement.
- Led **Laravel backend development**, including custom logic, user authentication, and framework version upgrades to maintain stability and security.
- Boosted app performance through **Lighthouse audits**, addressing accessibility, SEO, and load speed bottlenecks.
- Initiated and delivered internal **knowledge-sharing sessions** on **React architecture**, **SQL optimization**, and **Laravel Livewire**, promoting a culture of continuous learning.

- **Allur:** <https://allur.am/hy>
- **Al Bassil:** <https://abpipes.ae/en>
- **Rent car:** <https://rentcar1.am>
- **Only One:** <https://onlyone.am/>
- **Our Team Club:** <https://ourteamclub.com/>
- **OurExchangeClub:** <https://ourexchange.club/>
- **National mortgage company:** <https://nmc.am/>
- **Only one:** <https://citynest.am/onlyone/en>
- **New Venture Brokerage:** <https://nvbrokerage.com/>

Languages:

- *Armenian (Native)*
- *Russian (Fluent)*
- *English (Proficient)*

Skills:

Technical Skills:

Frontend:

- *HTML5, CSS3, SCSS*
- *JavaScript, TypeScript*
- *React.js, Next.js, Redux, Alpine.js*
- *Tailwind CSS, Bootstrap*
- *Responsive UI/UX design, Component-based architecture*

Backend:

- *Node.js, Express.js*
- *PHP, Laravel, Laravel Livewire*
- *REST API design, Authentication, Middleware*
- *MySQL, PostgreSQL, MongoDB, Redis*
- *Python*

Tools & DevOps:

- *Git (GitHub, BitBucket), Vite, Webpack*
- *Nginx, Apache*
- *Figma, Zeplin, Adobe XD/AI/PS*
- *Trello, JIRA*

Soft Skills:

- *Strong communication, teamwork, problem-solving, and project management abilities.*

Education and Certifications:

Full-stack JavaScript development | PicsArt Academy | 2024 May - 2025 March

- *Computer Science*
- *React.js, Next.js, Vue.js, Redux*
- *Node.js*
- *Algorithms & Data Structures*

Full-stack Development Certification | AGBU "Women Coders" Program, Yerevan | 2021 - 2022

- *Completed comprehensive training in HTML, CSS/SCSS, JS/jQuery, PHP, MySQL, and JSON.*
- *Applied Agile methodologies using tools like Jira, Confluence, and Trello for project management.*
- *Acquired foundational skills in Linux and Git, learning essential command-line operations and system management.*

Bachelor's and Master's in Art History | Yerevan State University | 2008 - 2015
